

# ActivateSA

A Better  
San Antonio

**ActivateSA** envisions a better San Antonio through daily active transportation & transit advocacy efforts such as: awareness and empowerment efforts; storytelling; data analysis; community empowerment and mobilization; technical assistance and review; events such as town halls and lectures; and local project development and implementation advocacy (City of San Antonio, Bexar County, VIA, TxDOT, AAMPO, etc.).

## OUR MISSION

Our mission is to activate a connected, equitable, resilient, & safe community for all through transportation advocacy, consensus building, and education.

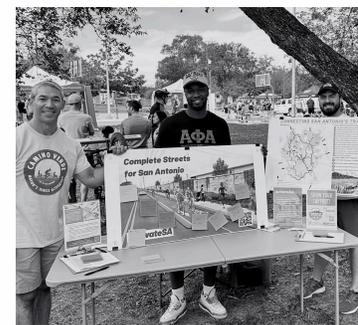

## OUR VISION

Our vision is to work toward a future San Antonio where people are empowered to move freely through connected, safe, resilient & equitable communities.

## ACTIVATING SAN ANTONIO

“Activating” San Antonio is all-encompassing. It is not only making a better way to move between places but propelling the city into a sustainable future by fostering:

- Social Mobility
- Resilient Neighborhoods
- Equitable Economic Development
- Public Transit
- Anti-displacement Protections
- Inclusive Land Planning
- Affordable Housing

## OUR SUPPORTERS

- 80/20 Foundation
- American Heart Association
- Donors just like you!

80|20 FOUNDATION

American Heart Association.  
You're the Cure

“ActivateSA has served as a trusted partner in co-creating strategies and policies to redevelop San Antonio into a more resilient, inclusive, and connected city. San Antonio is lucky to have community-oriented thought leaders dedicated to transforming our built environment for the benefit of all residents.”

– Mayor Ron Nirenberg

ActivateSA Impact Report 2024

## PROJECTS

## CONTRIBUTIONS

### Key ActivateSA Projects

#### Complete Streets Campaign

We serve as the lead organizer of the San Antonio Complete Streets Coalition, which worked closely with the City's Transportation Department to create a new & updated policy which was adopted on September 19, 2024.

#### Greenway Trail & Active Transportation System Development

In preparation for the 2022 City of San Antonio bond, ActivateSA created an active transportation system proposal to provide connectivity within and between our 13 regional centers. We were a key figure in helping secure \$106 million in greenway trail funding in the 2022 bond cycle and are a key local partner in the Great Springs Project.

#### Community Action Coalition

We host regular meetings, such as monthly Complete Streets Coalition meetings, to network & facilitate intergovernmental collaboration amongst stakeholders & public officials.

#### Governmental Grant Support for Transportation Projects

We partnered with Brooks to create a successful, collaborative three-part \$9.3 million 2024 AAMPO funding proposal to connect the San Antonio River Mission Reach to the Salado Creek Greenway.

#### Share the Streets Campaign

This community collaborative effort created safe spaces to walk & bike through open streets initiatives in the height of the COVID-19 pandemic on neighborhood streets such as Cincinnati Ave & West Caesar Chavez St.

### Whats Next?

- Continued advocacy on local projects and plans such as Complete Streets, Bike Network Plan, Vision Zero, and Transit Oriented Development.  
↳ *Phase 2 of the Complete Streets policy is scheduled to begin Fall 2024!*
- Project development for the 2027 City of San Antonio bond.
- Increase our annual budget from \$160k to \$700k by 2025 to bolster our advocacy efforts with new full time employees and community engagement efforts.
